

Earn passive income by referring investors to Link Club.

Referral Fees

- A 3.0% fee based on the first purchase value.

How it works?

To earn a referral fee, the following conditions must be met:

- The referred buyer completes their first-ever purchase on Link Club, this applies only to their first transaction — whether it's in a pre-construction, under-construction, or operational property.
- Fractions are grouped into "Clubs." Referral payouts are only triggered once all available fractions are sold, and the Club is tokenized.
- The referred buyer confirms your referral by either:
 - Sign up using your referral email link, or
 - Manually confirm you as their referrer when prompted.

Payout Timeline

Once conditions are met, your commission will be processed and disbursed within **15-30 days**.
